

# Early Help Service

**We help children, young people and families who need extra support.**

We work with families, in their own homes and in the community, helping tackle problems before they become more difficult to reverse.

We provide 12 Family Hubs across West Sussex offering:

- » Drop-in services for information, advice and guidance
- » Crisis support – such as emergency access to food and utilities
- » Support and information for young people aged 11-25 on a range of subjects through our 'Find it Out' offer
- » Access to services provided by our partners such as health clinics and support groups
- » Social spaces to meet other parents
- » Help to access the free entitlement to childcare places

**For further information please contact 01403 229900.**
